

Two Colors Mostly (Two day class)

Sometimes the simplest way to work is the most powerful. I have made many quilts with a 2-color approach, sometimes by being strict about it and sometimes by using mostly two colors with a few accents here and there. This class will be organized around an exercise that I have developed to create large scale and powerful designs. I recommend using solid black and white, but I am open to any strongly contrasting pair of fabrics. You should leave the class with a mostly complete quilt top.

Supplies:

2 yards each black and white fabrics (or other strongly contrasting pair of colors)
At least 3 more yards of various fabrics you like

Sewing machine and all standard supplies, rulers, rotary cutter, mat, etc.

Patchwork Quilt
